Sand/Grass Whiting	560 grm	18	1008
Garfish	400 grm	25	1000

Only species size (ie. fish caught in our fishing area) was considered, not rarity.

Most of these fish can be caught in our fishing area.

Any fish caught not on the list, will be allocated a value of 5 points per 10 grams and that value will remain in place for the full season. (refer Club Rules).

Fish that are not accepted are : toads, eels, rays, skates & shark (other than gummy shark).

The table shows a large fish in each species (for our area).

The Points System is for only competition & aggregate trophies.

Heaviest fish of the year will still be by weight.
